

Since our last arrived the Mail due from Holland.

Petersburgh, February 11.

R. Imperial Majesty, a little before the Departure of the Polish Minister, made a Present to the Countess Oginski, his Spouse, of some very fine Furs of Zibeline; and of two Pieces of rich China Brocade. Prince Nariskin, who is to conduct the Princess of Anhalt Zerbst, and her Daughter, is charged with Bills to the Value of 10,000 Roubles, as a Present to her Highness for her Expences. It is said, that the Empress desires nothing so much as to see the Imperial Prince married, tho' so young, in hopes of his having Issue in Russia. It has been observed with great Satisfaction by the Russian Nobility, that the Empress has carried with her but one Lady of foreign Extraction to Moscow. Count Sparre is arrived here Post from Stockholm, with the Medals of the Royal House of Wals; and it is thought that Nobleman will speedily set out after his Imperial Highness to Moscow.

Stockholm, February 11. Monsieur de Redderstedt arrived here Yesterday with the Convention concluded with the Danish Court; which was approved in an extraordinary Assembly of the Senate, and is said to consist of the following Articles; viz. I. That a good Intelligence shall be preserved between the two Crowns. II. That both Sides shall disavow by Land and Sea. III. That Denmark shall renounce all her Pretensions to the Succession of the Crown of Sweden. IV. That Sweden shall religiously observe all the Engagements she has contracted with Denmark; particularly those contained in the Alliance of 1734.

Warsaw, February 17. The Rebellion in Lithuania is become a very serious Affair, the Malecontents having received a Supply of 4000 Muskets, and a great Quantity of Ammunition. They sent some of their Officers to confer with those of the Troops sent to suppress them; and told them, that they insisted only upon Things of Common Right, and without which it was impossible for them to subsist; and, in the first Place, on the Banishment of the Jews. This not being granted, they stormed a Fort the next Day, defended by a Handful of Regular Troops, by whom they were beat, and about 30 made Prisoners; which were hanged up over the Walls, without farther Ceremony. This was so far from intimidating the Rebels, that their Commander, Woisczlow, immediately sent for the Cossacks, who are recruited in the Ukraine, and who have since joined them with 7000 Men. Both Bodies of Rebels put the Jews every where to Death, without Respect to Sex or Age; and, of late, have carried their Cruelty so far, as first to baptize, and then hang up, Children of a Month old.

Madrid, February 10. Count Montejo has had a miserable Journey, and been in some Danger of perishing in the Snows, in his Way hither from Paris. His Brother, the Count de Mancera, will have the Spanish Company of Guards. Their Majesties lately dispatch'd an Express to the Prince de Campo Florido at Paris; and of such Importance was the Dispatch he carried, that their Majesties did not sit down to Dinner till it was finished; and that was at Half an Hour after Seven in the Evening. Two Millions of Pieces of Eight have been sent to Toulon, and a Reinforcement of 14,000 Men for the Army of Don Philip.

Turin, February 8. By our Letters from the Romagna, there seem to be some Hopes, and even a great likelihood, that the Spanish Army, under M. de Gages, is on the Point of retiring nearer the Neapolitan Frontiers, and towards Perugia and Foligno, for want of Subsistence; in which his Britannick Majesty's Ships in the Adriatic have greatly frightened them. Their Horses, heavy Baggage, and largest Cannon, were already in Motion with their worst Troops, and such as they cannot trust to; and their Walloon and Spanish Guards, and old Regiments, are reserved for the Rear Guard.

Vienna, February 19. Our Court is very much rejoiced at the finishing the troublesome Affair of the Margrave de Bova, who has now justified himself to the Satisfaction of the Court of Petersburg, and turned the Defeatment of the Czarin on the Contrivance of his Ennemy. A Manifesto, in which this whole Affair is set in a clear Light, is in the Press, and will very speedily be published. Field Marshal Count Traun will command the Army under Prince Charles on the Rhine, which will take the Field by the middle of next Month, to defeat the Design of the French, which is to

besiege Freiburg. Some of the Under-Officers in Bavaria having exacted much larger Contributions than they were ordered to do, have been arrested, and will be severely punished. His Sardinian Majesty has ordered his Troops to evacuate the Cities of Parma and Modena.

Berlin, February 21. The Troops that are to make the Campaign this Year are complete, and ready to take the Field, at three Days Notice, and we flatter ourselves, that almost all the Princes and States of the Empire will declare in favour of his Imperial Majesty. All our heavy Artillery is refounding, in Consequence of a new Discovery, which the Court keeps a profound Secret; whereby they will be of the same Use, tho' but of half the Weight of Metal. There is a Report, that a Body of our Forces have lately taken Possession of the Convent of Oliva, near Dantzick; but there is no great Credit given to it.

Hague, March 3. They write from Brussels, that they have certain Intelligence, that the Brest Squadron has on board 4000 Regular Troops, 10,000 Saddles and Bridles, and 40,000 Fuzils; which are intended for a Descent on some Part or other of the British Dominions. Their High Mightinesses have not only granted the 6000 Men demanded by the Court of Great Britain, but have also named the General Officers to command, and the Corps that are to compose them. They are to Rendezvous immediately in the Neighbourhood of Breda, and are to march from thence to Williamstadt, in order to embark under the Convoy of four Men of War belonging to the Republick. The Regency of the Austrian Netherlands are exceedingly alarmed at the Preparations of the French, and have directed the Garrison of Ostend to be augmented by three Battalions of English Troops; the Fortifications to be repaired, and furnished with the English Artillery.

General Post-Office, London, February 8, 1743.

WHEREAS the Post-Boy, going out with the West Mail from this Office, was this Morning, between Five and Six o'Clock, attack'd on the Highway at the Staling Place, on the other Side of Turnham-Green, by a single Highwayman, who took the said Post-Boy into a Field adjoining to the Road, and opened the Mail, and carried off the Exeter and Plymouth Bags; The Person, who committed this Robbery, is a middle-sized Man, and had on a Blue Great Coat, with his Hat tied over his Head, and he rode on a Sorrel Horse with a White Face, about Fourteen Hands high, and made off for Acton, the Oxford Road.

This therefore is to give Notice, that whoever shall apprehend and convict, or cause to be apprehended and convicted, the Person who committed this Robbery, will be intitled to a Reward of Two Hundred Pounds, over and above the Reward given by Act of Parliament for apprehending of Highwaymen: Or if any Person or Persons, whether Accomplice in the said Robbery, or knowing thereof, shall make a Discovery, whereby the Person who committed the same may be apprehended and brought to Justice, such Discoverer, or Discoverers, will, upon Conviction of the Party, be intitled to the same Reward of Two Hundred Pounds, and also have his Majesty's most gracious Pardon.

By Command of the Post-Master General,
George Shelocke, Secretary.

HOME PORTS.

Dover, February 24. 'There is now at an Anchor off Romney, 14 Sail of French Men of War. Sir John Norris, with his Fleet, passed this Road this Forenoon, and are now plying to Windward off Folkestone; but as the Tide is near done, he must soon come to an Anchor. The Weather is clear, and we can plainly discern the French Fleet from hence; and they must have had Sight of our Fleet for several Hours past, but don't move; which I hope they will have Reason to repent before To-morrow this Time. The Wind is at W. and by N. and a good Turning Gale.'

P. S. 'At half an Hour past Two this Afternoon, Sir John Norris, with his Division, came to an Anchor off Hythe; and Admiral Martin, with his Division, off Folkestone.'

Dover, February 25. 'This Morning we have Advice from Romney and Hythe, that when it clear'd up this Morning, not one French Man of War was to be seen, and only three of Sir John Norris's Fleet at an Anchor; one of which, suppos'd to be the Victory, having a Flag at the Main-Topmast Head, has lost her Mizzen-mast; another her Foremast and Bowprit; and the Third has all her Masts standing.'

Deal, February 24. 'Wind W. 'This Morning, at Seven o'Clock, Sir John Norris, with all the Fleet under his Command, sail'd to the Westward.' Can't down the Scpio, Tobin, for Nevil.

Deal, February 27. Wind N.E. and blows very hard. Last Night we had a most violent Gale of Wind, which began about Twelve o'Clock, and continues still. The following Ships are down on Shore, between Walsome and Sainsdown Castle; viz. the Dolphin, Warrington, from Gibraltar; the Industry, Bosc, for Virginia; the William and Sarah, Glegg, for Carolina; the Jemmet, Crookenden, for Barbados; the Recovery, Jones, from Barnstable; the Men all saved; the Genoa Galley, Ginnott, for Gibraltar; the Captain and a great many of the Men are drown'd, and the Ship entirely lost. There are several more down shore, but cannot get their Names. The Fort St. George, Acton, for East-India, has lost her Masts. Several Ships are down, but cannot tell where. There is just now an Account, that a Ship for East-India is on Shore near Broadstead. The Carolina Galley, Spillman, for Gibraltar, is entirely lost, the Captain and all the Men.

Arrived

At Dover, the Neptune, Brown, from Leghorn.

L O N D O N.

Field Marshal Count Oliver Wallis, having excused himself from taking upon him the Command of the Forces of Bohemia and Moravia, some private Letters from Vienna mention Prince Alexander of Liechtenstein, as appointed to succeed him. As there are some Reasons to fear, that Attempts may be made to rekindle the Flame of War in those Countries, Care has been taken to quarter in them, the adjacent Districts of Bavaria, and the Upper Palatinate, 100,000 Men; so that we are no longer in Pain about the Inroads of the Queen of Hungary's Enemies in those Parts.

It is impossible to learn with any Certainty, the Truth or Falshood of the Piece of News published lately, as to the carrying the Princess Anne of Mecklenburgh from Dunamander-schans to Petersburg; some Letters positively asserting it, and others saying as positively that it has no Foundation. One thing is certain, that no Advice from Petersburg, Hamburg, or Dantzick, mention a Tittle of the Conspiracy against the Czarina, of which the French Letters are full.

It is to be hoped that Nation does not contrive Plots, in order to discover them.

The Abbe le Maire, the French Minister at the Court of Copenhagen, being apprehensive that Mr. Tiley was treating for a Body of Men to be taken into British Pay, presented lately a Memorial, desiring that the Forces stipulated to be kept in Readiness for the Service of France, should be immediately put in a Condition to take the Field. To this the Danish Ministry answered, that in the present State of Things, it was not possible their Master should march any Troops for the Service of his most Christian Majesty; but that, in other Respects, the Treaties subsisting between the Crowns should be strictly complied with; and that his Danish Majesty would not furnish any Corps of Troops for the Service of any other Power whatever.

They write from Frankfort, that Count Seckendorff was to take Cassel in his Return to that City, in order to settle an Affair of great Importance. This is supposed to be the taking an additional Corps of 6000 Hessian Troops into the Imperial Service, over and above the 4000 that are already in the Army. It is confirmed, that this Nobleman failed in his Negotiation at Dresden; but it is pretended, that he succeeded perfectly at the Court of Berlin, the Effects of which, it is expected, will speedily appear.

We learn by the same Canal, that the States of Suabia, which were assembled at Ulm, have separated lately, without taking any Resolution, as to the Representations made them, either on the Part of the Queen of Hungary, or of his Imperial Majesty; declaring, however, they would adhere strictly to their Neutrality, and employ their whole Force against any Power whatever that should attempt to infringe it; and to this Purpose have actually ordered the Forces of the Circle, to hold themselves in constant Readiness.

Letters from France, by the Way of Holland, inform us, that the Fleet of Toulon had been restrained, for some time, from going out of that Port, by the wretched State of most of the Spanish Fleet. That at last they were forced to leave four Spanish Frigates in Port, that were not in a Condition to put to Sea; and that of 2000 Sailors sent to man that Squadron from Spain, there did not arrive quite 800 effective Men at Toulon. On the 19th Instant, N. S. M. de Court held a Grand Council of War, in which most of the Officers were against fighting, till their Commander produced a positive Order from Court for that Purpose; when it was agreed to take a Body of Grenadiers on board, and to go in Search of Admiral Mathews directly.

disputed by the Admiralty on the 12th, about that the combined Squadrons sailed on the 12th, about Two in the Morning; and that about Three in the Afternoon Admiral Mathews, with the English Fleet, attacked the Spaniards; and that a dreadful cannonading was afterwards heard for several Hours; that three very large Ships were set on Fire, and consumed; but whether Spanish, French, or English, was not known. And the Mayor of Leicester has promised a Reward of 100 l. to any Person making such Discovery.

Mr. William Wright, of Bethnal-Green, Horse-Courser, was, on Sunday the 12th Instant, about Twelve o'Clock, attacked and robbed, between the 46 and 47 Mile Stones, in the Road to Huntingdon, by two Highwaymen, of 42 l. for which he intends to sue the Hundred.

**Dr. FREIND'S Specifick Powder for the
GREEN-SICKNESS:**

BEING an excellent Chemical Prepara-
tion, which soon removes all Symptoms of that Dissem-
per, Loss of Appetite, Shortness of Breath, Pain and Beating
of the Head and Heart, Sinking of the Spirits, Lassitude or
Weariness without having labour'd, Disinclination to Exer-
cise, &c. It destroys all Viscidities of the Blood, opens all
Obstructions, and quickly changes a pale livid Countenance
into a florid beautiful Complexion. This Medicine is not
unpleasant to take, of a grateful Smell, and of so safe a Na-
ture, that it may be given to a Child of three or four Years
old. It excites neither Vomiting nor Purging; but effects a
Cure by operating upon the Blood and Juices.

Sold by Mrs. CARNEGIE, at the Potter's-Shop facing the
Church Passage in Salisbury Court Fleet street, at 2 s. 6 d. the
Bottle. Good Allowance is made to such as take a Quantity.

Where is likewise sold, 7 s. 6 d. the Bottle.

BOERHAAVE'S Chemical Elixir:

Being

**A real SPECIFICK for Curing the WHITES in
Women:**

AS the immediate Cause of this Melan-
choly Disorder is, a Weakness of the Fibres and Vessels of
the Womb, and a retarded Circulation of the Blood thro' its
Vessels; this Medicine wonderfully strengthens those Fibres
and Vessels, and gently increases that necessary Circulation
of the Blood thro' them. It strengthens the STOMACH, and
amends the Solids and Fluids; a depraved State of which is
another Cause of the worst Kind of this Disorder. Hereby it
restores decay'd NATURE, causes Conception, and prevents
MISCARRIAGES. It removes Pains and Weakness of the
Back, and those pricking Pains often felt in the Privy Parts;
and all other Symptoms of this Disorder.

The Person to whom this was communicated, (and who pre-
pares the Medicine) has, from a great Number of Trials found
its surprising Efficacy, even in the most deplorable Cases, and
when all other Remedies have proved ineffectual. Many Wo-
men, by taking some two, some three Bottles, have been re-
covered from the most extreme Degree of Weakness, when
given over, and nigh at Death's Door, and made hearty, hale,
and to conceive and bear fine healthy Children, to the great
Comfort of Families who had despair'd of Issue. And, as he
has found its great Efficacy in his private Practice, a sincere
Desire for its being a general Good, is the only Design of its
appearing in this publick Manner.

TENCY, and SEMINAL WEAKNESSES: In these
from whatever Cause proceeding, and all on BARREN-
NESS in Women: Directing how they may be infallibly
cured, and those Men become able to propagate their Species,
who thro' Imbecility, Seminal Disorders, &c. have for several
Years thought it impossible; and such Women rendered fruitful
who have been deem'd incurably barren for many Years; with a
clear and very particular Account of Generation and Conception,
And a Digression concerning the Method of begetting SONS
rather than DAUGHTERS, or of DAUGHTERS rather than
SONS. Also of Miscarriage in Women, and how it may be
assuredly prevented, even in those who have miscarried nine or
ten times before; with Directions to Ladies how to conduct
themselves during their Pregnancy, and in Child-bed, and how
to cause a safe and easy Delivery: Likewise ample INSTRU-
CTIONS to MIDWIVES and NURSES, how to treat those
Child-bed Women with Safety and Success, and several Re-
medies proper to be administered, communicated without Re-
serve; as also Directions for the better Management of
born INFANTS, so as more certainly to preserve their Lives, and
Disaffection concerning suckling of Children, and bringing
them up by Hand.

To which is annex'd,

The LADIES PHYSICAL DIRECTORY:
Or, A Treatise of all the Weaknesses, Indispositions, and Dif-
ferences peculiar to the Female Sex, from eleven Years of Age to
fifty and upwards; by which Women and Maids of the usual
Capacity may perfectly understand the Symptoms, Nature, and
true Cause of their own Illnesses, and readily know how to man-
age themselves under all their Infirmities. With proper Remedies in
English prescrib'd, for the Green Sickness, Obstructions, leu-
corrhoea, Hysterick Affections, the Piles, and every other Dis-
order or Distemper the Fair Sex are peculiarly liable to, whereby
they may certainly and quickly cure themselves without Trouble
or the Advice or Knowledge of any other Person.

The Whole illustrated with various Cases of Persons cured,
proper Hints, useful Cautions, Observations and Instructions; all
like, for general Benefit, never before publish'd, and highly necessary
for every Family in the Nation. By a Physician.

Printed, and Sold only, by the Author's Appointment, at the
Gentleman's at the Two Blue Posts in Haydon-Yard in the Ho-
tories, London. Price Bound 2 s. 6 d.

**The most Fam'd and long Experienced Chymical Drops
For ASTHMA's and CONSUMPTIONS,**

That have been Sold so many Years, and with such un-
common Success and Benefit to the Publick, by Mr. Parry,
and his Predecessors, in Boar's-Head-Court, Fleet-
street; and, since Mr. Parry's Death, have been and
still are sold in London only by Mr. Read for 3 s. 6 d.
a Vial, at his House in White-Fryars. (N.B. You turn
in just by the Sun Tavern in Fleet-street, and it is the
great Corner House in White-Fryars; JAMES
READ, in great Letters, is wrote over the Door.)

They are a most Incomparable and never-failing Medicine
for the immediate Relief and perfect Cure of the most
confirmed ASTHMA of the longest standing:
And of all Sorts of CONSUMPTIONS, even when so
far advanced, as not to be cured by any other Medicine
in the World.

FOR their Virtues vastly exceed any
Thing that ever was published, or even known in the
whole World, in the Cure of the worst Asthma's and Consump-
tions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating
Fit of an Asthma, and make a perfect Cure in a very short
Time; for they gently open the Breast, and immediately give
Liberty of Breathing, without danger of taking Cold; they
admirably allay the Tickling, which provokes frequent Cough-
ing, and take off the uneasy Sensation of acrimonious Hum-
ours, cleanse the small Glands, relax the Fibres, and thereby
enlarge the Capacities of the Vessels; thus they regularly and
quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consump-
tions, Ulcers of the Lungs, &c. removing all Obstructions of
the Breast and Lungs, Hoarseness, Wheezing, Soreness, Short-
ness of Breath, and all the usual Symptoms which attend the
Beginnings of a Consumption; and, if taken in time, will in-
fallibly prevent it when feared. They are also exceeding na-
rative and strengthening to Persons of weakly Constitutions,
and have no other sensible Operation than to occasion a gentle
Breathing in the Night.

And by Parity of Reasoning this most excellent Medicine is
(and is well known to be) the most sovereign Remedy in the
World for those troublesome spending Coughs, which many are
severely troubled with Night and Morning; and also for the
Chin-Cough, and Hooping-Cough in Children, having cured
Thousands; is so agreeable, and so few Drops to a Dose, that
Children take them with Pleasure, and without any Con-
finement.

In short, these unparallel'd Chymical Drops are the most
infallible Remedy that ever was known (and therefore we despite
the faint Efforts of all Counterfeiters or Imitators) for the
Ailments above-mentioned, and allowed to be so by the most
Judicious amongst the Learned in Physick; and confirmed by
the largest Experience in private Practice, and are made Pub-
lick for Common Good.

N. B. They are sent to many Parts of the World, particu-
larly to his Majesty's Colonies in the West Indies, &c.

Good Allowance is given by the Dozen to sell them again.
They will keep good many Years, well cork'd, in any Climate.
